K-CONCEAL IT

Textures and sensoriality

The emulsion formula is lightweight, glide and incredibly easy to blend, designed to melt into the skin without weighing it down.

Thanks to its modulable medium-high coverage, it allows you to obtain a uniform and impeccable result, customizable according to the needs of the moment.

Comfort and performance

Enriched with Aloe vera and vitamin E, it gives a silky, impalpable and evanescent skin feel. The soft and velvety texture dries quickly without creating marks and streaks or highlighting fine lines. No oily residue, just a feeling of freshness and comfort that lasts all day.

Versatile functionality

Perfect for illuminating and covering the eye contour area, neutralizing discoloration and signs of fatigue, but also ideal as a uniforming base to enhance the application of subsequent make-up.

Advanced pigmentation

The formula contains a high percentage of treated pigments, designed to ensure maximum adhesion to the skin, high color rendering and natural but effective coverage.

The result

A smoother, more even and radiant-looking complexion, with a finish that combines radiance and naturalness.
