K-FLAWLESS

COLLECTION

# FLAWLESS COVERAGE: EVERY TOUCH IS PERFECTION!

## Get it whenever you want with the new K-FLAWLESS COLLECTION

The perfect look starts with a perfect base: even out your complexion, play with light and sculpt your features with the new K-Flawless collection, for problem-free make-up control all day long.

All it takes is a few must-haves for the canvas on which to express your wildest creativity or feel perfect in everyday life. Be flawless, effortlessly.

## K-FLAWLESS DISPLAY

## DIVINE COVER N.07-08

The line of foundations offering immediate and divine coverage expands: two new colours with a rich creamy texture for a radiant and even complexion. Formulated with macadamia oil, sweet almond oil, pectin and vitamin E, Divine Cover foundations are waterproof and radiant and provide coverage with no mask effect. Easy and comfortable to apply, with a nourishing texture.

**Tips from Karaja:** Apply to the whole face with the N°12 K-Foundation Brush and perfect the texture with the K-Blending Sponge for a flawless, natural finish, free from streaks or blemishes.

## K-3D HIGH DEFINITION

The new line of ultra-soft and hyper-pigmented compact powders to enhance facial features while defining their elegance. They give instant brightness, warmth and depth for a natural, long-lasting radiance. The ultra-smooth and lightweight formulas are gliding to the touch and can be blended together for a natural look. Easy to apply and buildable, the colours glide over the skin and suit all complexions, offering a unique solution for any look from subtle to ultra-exciting.

### 01 – DEEP SHADOW

Nude shades with an extremely blendable and soft texture to create shadows and give depth to facial contours with a flawless silky finish. Shea butter and chamomile extract give the product a creamy effect for a sublime experience.

**Tips from Karaja:** Sculpt and define by applying with the N°14 K-Round Face Brush along the hairline, temples, cheekbones and jawline, always blending outwards. For an extra bold look, apply with the N°17 K-Blending Brush just above the tip and to the sides of the nose for extra definition.

### 02 – WARM ROSE

Pigment-rich blushes with impeccable blendability for a natural and imperceptible effect that gives radiance to the face, from using very little product to the most daring looks, always lightweight and long-lasting.

**Tips from Karaja:** Accentuate your expressions and add a touch of natural colour by applying it with the N°16 K-Blush Brush to the centre of the cheeks and blending towards the hairline. Take it to the next level by sweeping it over your nose for a fresh, soft look.

### 03 – LIFTING LIGHT

Ultra-reflecting illuminating powder that harnesses the light and focuses it where your face shines with a harmonising lifting effect. Soft pearls with golden highlights give your face a compact natural radiance with no glitter effect. Thanks to the buildability and blendability of the formula, the light melts into and illuminates the skin.

**Tips from Karaja:** Illuminate your features by applying it to the eyebrow arch, the top of the cheekbones, the inner corner of the eye, the bridge and tip of the nose and the Cupid's bow with the N°9 K-Angled Eye Brush. For a super-charged glow, apply multiple layers!

## PLAISIR N.03

The classic Plaisir loose powder, now with a completely transparent finish and fixing action. Apply to the whole face to fix foundation and further increase hold or just to the T-zone to counteract unwanted shine and redefine the face, harmonising your features. A very fine and imperceptible powder, it does not dry out the skin and avoids any cakey effect on the face, with its soft and smooth texture.

**Tips from Karaja:** Use the powder puff included or the N°13 K-Face Brush on the T-zone to eliminate shine by blending towards the edges of the face; to fix your foundation, use the powder puff all over the face and remove excess product with the N°15 K-Flat Face Brush.

## PLAISIR N.04

Tinted loose powder to perfect the complexion and support the smoothing action of the foundation. Enriched with silicone components, the formula ensures the product is smooth and creamy yet lightweight. It also helps sebum-regulation by absorbing excess sebum and keeping the skin fresh. The light tint evens out imperfections and gives a smooth and compact appearance to the face, fixing make-up and keeping it perfect for a long time.

**Tips from Karaja:** Use the powder puff included or the N°13 K-Face Brush on the T-zone to eliminate shine by blending towards the edges of the face; to fix your foundation, use the powder puff all over the face and remove excess product with the N°15 K-Flat Face Brush. Additional Hint: Perfect and illuminate the complexion in the lower eye area by tapping with the powder puff and leaving on for a few seconds, then gently remove excess powder with a soft bristle brush such as the N°8 K-Blending Brush.
