K-GOLDEN MIRAGE

COLLECTION

A VISION OF PURE, PASSIONATE AND RENEWED BEAUTY.

K-Golden Mirage is warm sand that shines like a desert of gold and pearls, it is a fresh and sublimating mirage that shines in the sunlight.

This collection of essential products brings the sunset, warmth and light to your face and body, as in a heavenly oasis where everything is iridescent and dreamlike.

DISPLAY

K-GOLDEN MIRAGE

Liquid bronzer with a pearly and luminous finish. The light and highly blendable texture melts with the skin for a sun-kissed look, with a touch of golden pearlescence to give the face three-dimensionality and radiance. With hyaluronic acid, linoleic acid and Lepidium sativum extract with protective and antioxidant properties.

Karaja's tips: apply 2-3 drops on the cheekbones and nose and blend outwards with the K-Round Face Brush n° 14, or pat with the K-Blending Sponge. Add more drops of product to intensify the tanning and glowing effect, also applying it to the hairline, chin and jawline for a super-tanned and deep look!

K-GOLDEN DROPS

Shimmering oil with sun protection factor 20 (medium protection). This fast-absorbing oil with ultra-luminous slightly pearlescent finish, is non-greasy and gives the skin radiance and freshness, with a light scent of coconut and almonds. Enriched with a mix of nourishing oils such as coconut, almond, argan, orange and Ylang Ylang oils.

Karaja's tips: Apply 5-6 drops of the oil to areas such as collarbones and shoulders and massage to capture the sunlight optimally, or to all exposed areas for complete radiance. Increase the dose if you want a more noticeable brightening effect. The use of this product is not indicated for active tanning sessions or prolonged exposure to the sun.

K-SAND & SILK

Powder bronzer with sun protection factor 20 (medium protection). The soft, ultra-fine powder with a creamy, silky texture gives an even, flawless complexion for a natural-looking sun kissed complexion. The highly blendable pigmented formula makes this bronzer excellent for sublimating the lines of the face and defining its elegance, thanks to the buildable and never exaggerated coverage. Available in 2 shades: 10 – Fair, for fair complexions in phototypes 1 and 2; 20 – Medium, for medium and olive complexions in phototype 3 to 5

Karaja's tips: apply the bronzer with the K-Flat Face Brush n° 15 on the hairline, temples and cheekbones to give depth to the face, always blending outwards. If you want a more tanned and intense look, apply a light even layer all over the face and intensify the areas indicated above. The use of this product is not indicated for active tanning sessions or prolonged exposure to the sun.

K-PEARLY MIRAGE

Liquid highlighter with gel effect. The velvety, smooth and comfortable texture allows the product to be spread evenly without stains, for an extra-reflective effect with buildable intensity. With Luminescine, a blend containing Verbascum thapsus extract for its bioluminescent properties, which allow this product to capture the light and give the look a radiant, fresh and natural finish. Available in 4 shades: n° 1 – Aurora, with purple and pink reflections; n° 2 – Pearl, with cold golden pearl-effect reflections; n° 3 – Gold, with delicate and warm golden reflections; n° 4 – Bronze, with deep bronzed and golden reflections.

Karaja's tips: combine a small amount of this ultra-light product with your foundation for a delicate and radiant glowy base, or apply it to areas of the face to be enhanced such as the top of the cheekbones and the tip of the nose and pat with the K-Blending Brush n° 17 to evenly distribute the texture and allow it to blend with your skin. For an extra bright and intense look, apply multiple layers.
